Dear Matt:

I have clicked on the link in response to the invitation to comment to you about these proposed bar rules. While I certainly think it is a good idea to add these issues into the CLE curriculum, I believe requiring an increase in overall CLE hours every year from eleven to twelve is overkill. Like all of us, I attend a program each year on ethics and the speakers at these seminars are running out of content for them. I think the Court could kill two birds with one stone by simply changing the rules to require the annual ethics programs we all attend to now include content regarding Harassment and Discrimination. That would assist those presenting at these programs with ideas for new content and would also ensure these very important topics receive the discussion they deserve. Many thanks to you and all who will read this for considering these thoughts.

Best regards, Doug
